7. Click **Profile** where you can find the downloaded eduroam network profile.

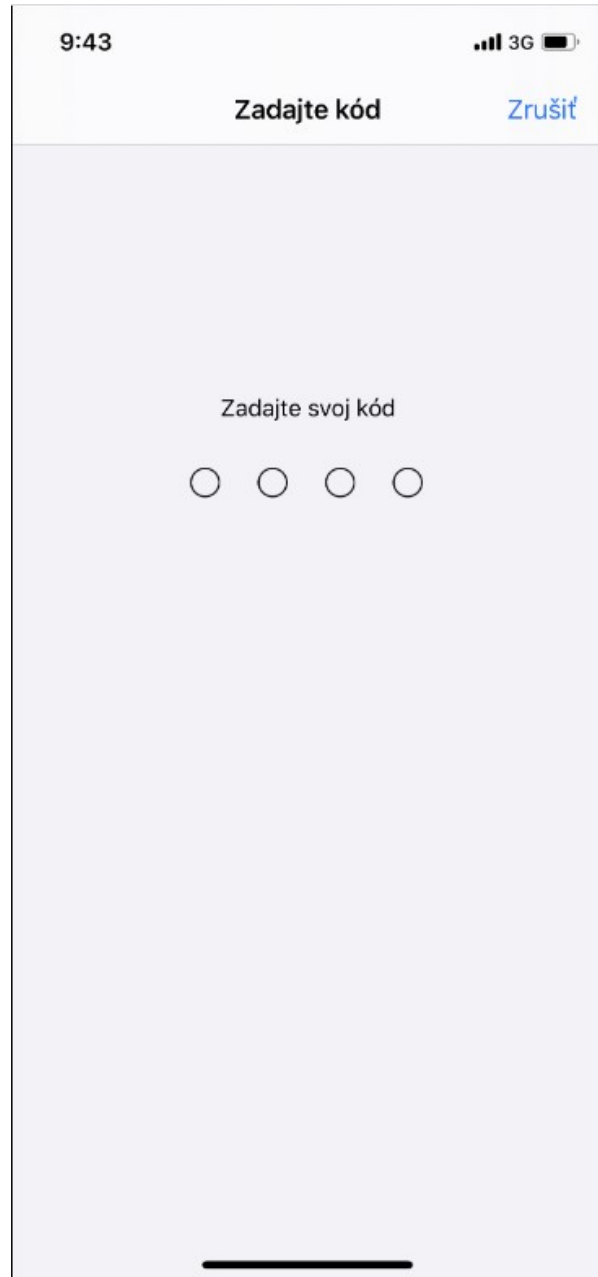

8. Select the eduroam profile.

9. Click **Install**.

10. Enter your mobile passcode.

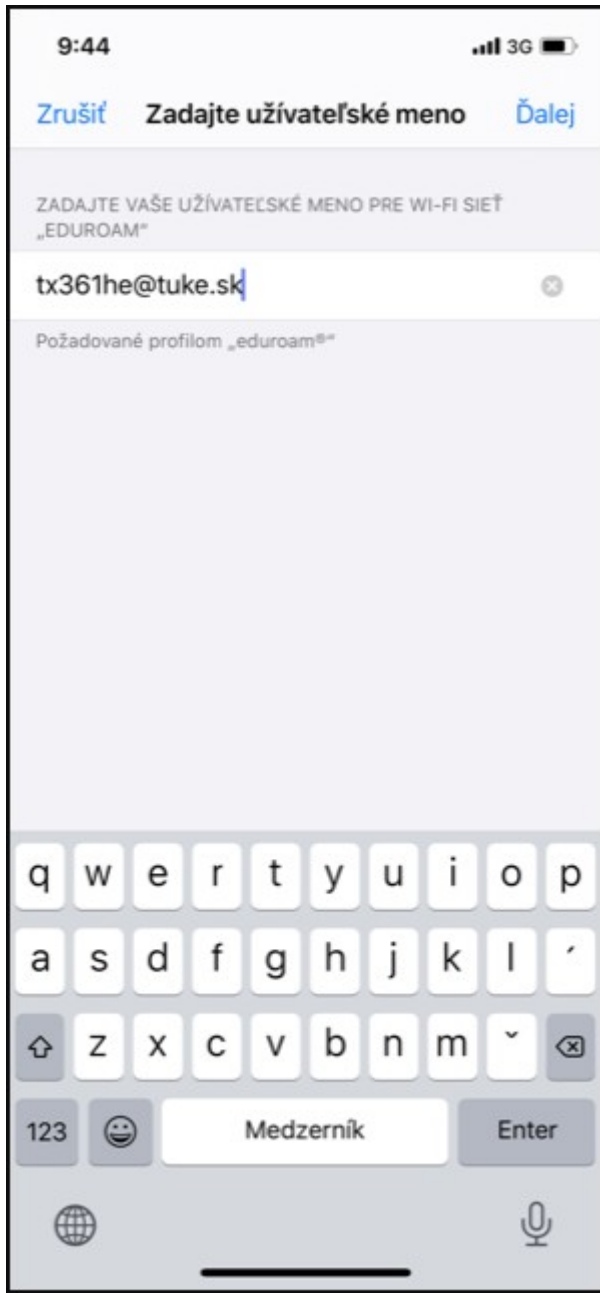

11. Confirm the certificate installation and click **Install**.

12. In the Warning window click **Install**.

13. Enter your unique login in the form **xy123ab@tuke.sk** and click **Next**.

The screenshot shows a mobile application interface. At the top, the time is 9:44 and the signal strength is 3G. Below the status bar, there are three buttons: "Zrušiť" (Cancel), "Zadajte užívateľské meno" (Enter username), and "Ďalej" (Next). The main heading reads "ZADAJTE VAŠE UŽÍVATEĽSKÉ MENO PRE WI-FI SIEŤ „EDUROAM“". A text input field contains the email address "tx361he@tuke.sk" with a clear button (X) to its right. Below the input field, it says "Požadované profilom „eduroam“". At the bottom, a standard QWERTY keyboard is visible, with the "Enter" key labeled "Medzerník".

14. Enter your WiFi password which you previously set on the page:
